

Karly's Story

“I have a rare disorder that few people have heard of called Rett Syndrome. I am one of a few women in the world with this disorder who can communicate. I have been so inspired while riding a beautiful 28-year-old Fox Trotter named “Chester” this summer. I find freedom on the back of a horse that I never have on my own two feet. You will hear more of my story in the spring edition of Apples ‘n Oats.”
