BEYOND HORSE MASSAGE

A Breakthrough Interactive Method for Alleviating
Soreness, Strain and Tension

JIM MASTERSON WITH STEFANIE REINHOLD

Trafalgar Square Books is pleased to announce the publication of *Beyond Horse Massage* by internationally renowned equine massage therapist and bodywork professional Jim Masterson. Introducing a whole new way to help your horse release tension and restriction in his body while working with his natural instincts! The Masterson Method™ is an innovative form of bodywork that relaxes the horse's body and relieves his muscles, connective tissue, and structure of deep stress and pain. Through the gentle and light manipulation of targeted Release Points; the movement of joints or junctions through a range of motion in a relaxed state; and studied observation of the horse's responses (his reactions tell you what he is feeling), you'll open doors to improved health and performance while enhancing communication—and your relationship—along the way.

JIM MASTERSON, Equine Massage Therapist for the 2006, 2008, and 2010 USET Endurance Teams, and for equine clientele competing in FEI World Cup, Pan American, and World Games competitions, first became interested in equine massage in 1997. In the years that followed, Jim developed a system in which the horse participates in the bodywork process by showing the practitioner where tension has accumulated, precisely how much pressure is needed to release it, and when it has been released. The result is an effective method of bodywork that anyone can learn to use, to improve performance while at the same time opening new levels of communication and trust with the horse. Jim currently works on 500 to 600 horses a year

on the US hunter-jumper circuit, and he also helped members of the USET Singles Driving Team and Jumping Team prior to the 2010 Championships in Italy. Jim teaches Masterson Method™ seminars and advanced courses to horse owners, trainers, and therapists worldwide.

“Without a doubt, Jim Masterson’s work is AMAZING! It is gentle, effective, and strengthens the bond and communication between you and your horse. His method directly complements what I do while training. For me, it’s the perfect combination of both ‘physical therapy’ from the ground and from the saddle.”
